

**“Revealing Technology to Your Business”**

**REVELATION**  
I.T. CONSULTANTS

Revelation IT Consultants is a service oriented IT management and maintenance solution provider. As an outsourced IT manager, we will help you leverage your current software and equipment to it's full capabilities. We can ease you into new technology to increase the productivity and availability of your information. Revelation IT Consultants offers a full range of services including IT consulting, management and maintenance. In addition, we also offer remote support, website development, wireless solutions, network engineering, security, and repair. Our clients include law firms, national companies, nonprofit organizations, retail stores and small businesses.
